Headings: Nextgen Investors - Empowering Student Innovators to Tackle Global Challenges through Technology and Innovation.

Heading 2 : Our pipeline of future students

- At Nextgen Investors, we believe that the future belongs to those who are passionate about innovation and problem-solving. That's why we're building the world's largest pipeline of student innovators.
- Our programs and initiatives are designed to help students develop the skills and knowledge they need to create innovative solutions to some of the world's biggest problems, from food security to climate change, and beyond.
- We believe that the world's biggest challenges require fresh perspectives and innovative solutions, and that young people are uniquely positioned to drive positive change. That's why we're committed to supporting the next generation of student innovators in their quest to create a more sustainable, innovative, and equitable world for all.
- Whether you're a student, teacher, or mentor, we invite you to join our community of student innovators and help us build a better future. Together, we can create a world where technology and innovation are used to promote sustainable development and address pressing global challenges, and where young people are at the forefront of this movement.

Our Vision

At Nextgen Investors, our vision is to create an enabling platform that empowers young people to achieve the UN Sustainable Development Goals through their inventions. We believe that by harnessing the creative potential of our youth, we can create a better world for all.

Our Mission

Our mission is to encourage the inclusion of young people in changing the narrative of our world through their inventions. We want to empower the next generation of inventors and entrepreneurs to make a positive impact in their communities and beyond.

Our Goals

- At Nextgen Investors, our goal is to empower students to become the next generation of innovators and problem-solvers.

- We believe that students have the creativity, passion, and drive to create innovative solutions to some of the world's biggest problems, and we're committed to providing them with the tools and resources they need to do so.
- Through our programs and initiatives, we aim to foster a culture of innovation and entrepreneurship among students, and to inspire them to make a positive impact in their communities and beyond.

Get Involved

- Whether you're a student, a teacher, or just someone who is passionate about making a difference, we invite you to get involved with Nextgen Investors.
- Our programs and initiatives are designed to support students at all levels, from Primary 4 to SSS 3, and we offer a range of opportunities to get involved and make a difference.
- Join us today and be a part of the movement to create a more sustainable, innovative, and equitable world for all.

Enrollment page content

Join the Nextgen Innovators Community

Thank you for your interest in joining the Nextgen Innovators community!

Our program is designed to provide resources, mentorship, and opportunities to help students turn their ideas into reality and make a positive impact.

Here's how to enroll:

1. Enroll by filling out an online form: name, age, school, interests, quick.
2. Check your email: Check email for program overview, instructions, and resources as community member or Or Check your email: Check email for verification

3. Join the community: Once you've received your welcome email, you'll be a part of the Nextgen Innovators community!

Note Before the 4 SDGs buttons add this content

Reason: To provide clarity

Nextgen Innovators is a platform targeting tech solutions and innovation for four UN Sustainable Development Goals (SDGs): Food Security, Human Security, Climate Change, and Health

content on each of the four sections you mentioned:

Food Security:

Food security is a critical issue facing our world today. At Nextgen Innovators, we believe that technology can play a key role in addressing this challenge.

By developing new tools and approaches, we can increase agricultural productivity, reduce waste, and improve access to nutritious food for people in need. Join us in our mission to make food security a reality for all.

CTA for Food Security:

Ready to help solve the problem of food insecurity? Join Nextgen Innovators and become part of our community of young inventors working to create sustainable solutions.

Human Security:

Human security is about ensuring that people are safe and protected from harm, and have access to the resources they need to thrive.

At Nextgen Innovators, we believe that technology can help to address a range of human security challenges, from improving access to education and healthcare, to developing new tools for disaster response and conflict prevention. Join us in our mission to make the world a safer, more just place for everyone.

CTA for Human Security:

Want to help create a safer, more just world for all? Join Nextgen Innovators and be part of a community of young inventors working to develop new technologies for human security.

Climate Change:

Climate change is one of the biggest challenges facing our planet today, and it requires urgent action.

At Nextgen Innovators, we believe that technology can help to address this issue by reducing greenhouse gas emissions, improving energy efficiency, and developing new approaches to adapt to a changing climate. Join us in our mission to create a more sustainable future for all.

CTA for Climate Change:

Ready to help tackle the challenge of climate change? Join Nextgen Innovators and become part of our community of young inventors working to create sustainable solutions.

Health:

Access to healthcare is a fundamental human right, yet many people around the world lack access to basic healthcare services.

At Nextgen Innovators, we believe that technology can help to address this issue by improving healthcare delivery, developing new medical treatments, and enhancing disease prevention efforts. Join us in our mission to make healthcare accessible and affordable for all.

CTA for Health:

Want to help improve healthcare access for people around the world? Join Nextgen Innovators and be part of a community of young inventors working to create new technologies for health.

Prize and Rewards

We will award prizes to the three top-performing schools that demonstrate excellence in innovation and problem-solving.

The 1st, 2nd, and 3rd place winners will receive a **brand-new computer, \$2,000, and a 3D printer.**

In addition to these exciting prizes, all winning schools will receive:

1. A professional certificate to showcase their achievement
2. Access to ministers from different sectors in Nigeria to share their innovative ideas
3. Mentorship and guidance
4. Real-time opportunity to upscale their projects
5. Promotion on our social media platforms to help boost their profile and recognition.

Consolation prize section

Every participant will receive a **robot kit** to help them develop their skills and creativity. This kit will provide students with hands-on experience in building and programming robots.

Program requirement section

To participate in the Nextgen Innovators program, each school will need to follow these simple steps:

1. Pick a thematic area: Choose from our four focus areas - Food Security, Human Security, Climate Change, and Health - and develop a solution to a relevant problem.
2. Register with 3 students per team: Form a team of three students who are passionate about technology and innovation
3. Engage a mentor: Identify a mentor to guide your team throughout the program. This can be a teacher, engineer, or any other professional who has experience in the chosen thematic area.
4. Develop your solution: With the guidance of your mentor, develop your solution and bring it to life.

An enrollment fee of 200 thousand naira per school is required for participation. which covers the cost of the program and all associated resources.
